MACM 101 - D200 Discrete Math I

Instructor(s): Binay Bhattacharya

Calendar Objective/Description:
Discrete Math I

Instructor's Objectives:
Students need to have access to a computer, web-cam, and mic and a sufficiently stable internet connection as most content will be delivered online. Lectures and tutorials will be given in live mode with an opportunity for students to interact. Lectures will also be recorded and posted.

This course is an introduction to discrete mathematics. The course will focus on establishing basic principles and motivate the relevance of those principles by providing examples of applications in Computing Science and other related areas.

Prerequisites:
see go.sfu.ca

Topics:
- Counting
- Logic and Quantifiers
- Set Theory
- Formal Reasoning and Induction
- Functions and Relations
- Number Theory
- Graphs and Trees (if time permits)

Grading:
There will be several assignments, one or two midterms, and a final exam. The details will be discussed in the first week of classes.

Students must attain an overall passing grade on the weighted average of exams in the course in order to obtain a clear pass (C- or better).

Required Books:
Discrete Mathematics by, Sandy Irani, Publisher Zybooks, Online textbook, Discrete Mathematics by Sandy Irani, Publisher Zybooks, Online textbook. You need the subscription code SFUMACM101BhattacharyaFall2020
